DETAILED ACTION

Allowable Subject Matter

Claims 1-7, 9-18, 27 and 28 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-7, 9-18, 27 and 28 are allowed, because the prior art alone or in combination among other limitations does not teach or suggest to one of ordinary skill in the art, a method for deploying a graphical program on a portable computing device; wherein the graphical program includes one or more user interface elements that cannot be natively displayed on the portable computing device; and converting the graphical program to an executable by incorporating program instructions into the executable to enable the display of said one or more user interface elements on the portable computing device. The closest prior art Chainani et al. US patent no. 5,724,074 teaches, a user creating a graphical program that is then converted to an executable code that can be run by a processor that controls a device; however said prior art fails to teach the previously stated limitations contained in the applicants claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
